- Vite
- Tailwind CSS
- Bootstrap
- PHP
- MySQL
- PostgreSQL
- Figma

ABOUT ME

I am a Web Developer passionate about building efficient and user-friendly applications. I enjoy solving problems, optimizing user experiences, and collaborating with teams to create high-quality software solutions. My goal is to contribute to impactful projects and continuously grow as a developer.

WORK EXPERIENCE

● Internship at Addpay Service Point Co., Ltd. (4 Month)

E-Office Project

- Developed an e-Office system with user authentication, CRUD operations for managing quotations, invoices, payment vouchers, and letters, and task management for bidding.
- Integrated MySQL for data management, using HTML, CSS, JavaScript, Bootstrap for front-end, and PHP for back-end.

PROJECTS

● E-Commerce Project

- Developed an E-Commerce platform with product categorization, search, and cart management, featuring responsive design and dynamic API data fetching.

● Report Project

- Developed a web-based platform that allows users to submit community complaints (e.g., water supply issues, power outages) and track their status. Administrators can manage and update complaints through a dedicated dashboard.
